

COVID-19 Vaccine Clinic Schedule (Jan 27 to Feb 10, 2023)

Stay up-to-date with the COVID-19 vaccine. Learn about eligibility using the [COVID-19 Vaccine Eligibility](#) webpage.

Peterborough Public Health is actively delivering COVID-19 vaccines to residents in other community settings such as senior congregate living settings, schools, and other community organizations. While these clinics may not be available to all residents in our community, the list below captures the clinics that are open to the general public. In addition, some [local pharmacies](#) may administer COVID-19 vaccines.

Influenza (flu) vaccines will not be administered at PPH COVID-19 vaccine clinics. Please review the [flu clinic webpage](#) for more information.

PLEASE NOTE: Vaccine supply may fluctuate. If a Peterborough Public Health Clinic is being advertised for a certain age range, we can guarantee that at least one of the vaccines approved for that age range will be available.
