6.0	Signage	Reviewed	N/A
6.1	Post outbreak notification signs at all entrances to the facility and affected area(s).		
6.2	Post notices on the door of ill resident/patient advising visitors to check in at the nursing station before entering. See section 16.0 for Visitor Control Measures.		
Comr	nents: Click or tap here to enter text.		
7.0	Hand Hygiene	Reviewed	N/A
7.1	Reinforce the " <u>4 moments of hand hygiene</u> ". Clean hands with 70-90% alcohol-based hand rub, if hands are not visibly dirty. Wash hands with soap and water when hands are visibly dirty.		
	nents: Click or tap here to enter text.		
8.0	PPE	Reviewed	N/A
8.1	Use PPE as per PIDAC's <u>Routine Practices and Additional Precautions in all Health Care Settings</u> . Note: Wear a mask and eye protection to protect from splashes if a resident/patient has explosive diarrhea or projectile vomiting. Staff must have completed resident/patient care & be at least a 2- metre distance from resident/patient before any PPE is removed. Hand hygiene is performed as PPE is put-on and removed. Housekeeping staff are included when cleaning rooms of resident/patient on "Additional Precautions" as outlined above.

15.0 Staff (includes students/volunteers) Reviewed N/A
15.1 Symptomatic staff must be excluded from work.
Staff with COVID-19 symptoms should be excluded from working in any facility and
tested for COVID-19.
If COVID-19 has been ruled out and staff only have enteric symptoms, exclude ill staff
 If COVID-19 has been ruled out and staff only have enteric symptoms, exclude ill staff from working in any facility for at least 48 hours after enteric symptoms have resolved.
If COVID-19 has been ruled out and staff only have enteric symptoms, exclude ill staff

15.2	Staff working in an outbreak facility/area(s) should be discouraged from working at other facilities.							
15.3								
	where possible, work with either ill or with well residents/patients but not both. If this type of		_					
	cohorting of staff is not possible, staff should be assigned to work first in unaffected areas or with							
	well residents/patients while adhering to strict IPAC measures.							
	Comments: Click or tap here to enter text.							
16.0	Visitor Control Measures	Reviewed	N/A					
16.1	Visitors are permitted provided they are not ill and follow the facility's IPAC procedures. If COVID-							
	19 has not been ruled out, follow COVID-19 directives.							
	• Ensure the nursing station has up-to-date information regarding visitor control measures.							
	• Visitors should only visit one resident/patient exiting the facility immediately after the visit.							
	 If multiple resident/patient visits, it is recommended that the healthy resident/patient be visited first. 							
16.2	Ill residents/patients should be visited in their room only.							
16.3	Visitors will wear the same PPE and follow the same IPAC practices as staff. If COVID-19 has not been							
	ruled out, follow COVID-19 directives.							
16.4	Visitors can visit <u>well</u> residents/patients in common areas of the facility provided COVID is ruled out.							
16.5	Visiting by outside groups (i.e., entertainers, community groups, etc.) is not permitted in the							
	outbreak area. Exceptions to be discussed with PPH.							
16.6	Onsite adult/childcare programs may continue if it is possible to ensure there is no interaction							
	between the affected floor/unit staff or residents/patients and the participants in on-site child-care							
Comp	or other dayprograms.							
17.0	Comments: Click or tap here to enter text. 7.0 Food Safety Reviewed N/A
