WARNING: Drug Poisoning ALERT in Peterborough Region

October 30, 2024 - Peterborough Public Health is issuing an alert following reports from the community. Details on this event are below:

Pink/Purple Substance Being Sold as Fentanyl:

- Causing strong sedative effects
- Tested positive for suspected fentanyl and benzodiazepines using drug test strips

Use naloxone if you suspect a drug poisoning! Naloxone will work on the effects of fentanyl, but not ketamine! If both substances are present during a poisoning, naloxone can restore breathing, but the person may continue to experience the anesthetic and psychoactive effects of ketamine.
